

COMMUNITY FIELD TRIP

PROFESSIONAL DEVELOPMENT ON THE MOVE

Community Field Trip is a one-day professional development program for area employers that combines classroom training with community tours. You can customize our turnkey program to match your team's interests and boost their connections to each other and our community. It can be the most meaningful day of professional development your employees may ever experience!

BUILDING CULTURE & COMMUNITY ENGAGEMENT

Your team gets an in-depth look at important social issues in our community.

- One day team-building event, with classroom training and community site visits
- Up to 20 employees
- Visits to 3 local nonprofit organizations
- \$3,000 fee includes materials and programming, transportation, breakfast, & lunch

- Classroom training – including interactive activities – kicks off the day.
- Next, travel to **three** local nonprofit organizations working to address those issues. It's a unique opportunity to see the work as it happens and connect it to the why.
- Your Community Field Trip wraps up with a **hands-on** activity that pulls together the day's learning. Your team leaves feeling inspired and connected.
